Lifetime

- Leap 42.3 - is expected to be maintained until Jan 31 2019
- Leap 42.2 - will be maintained until 6 months after 42.3 (est. Jan 26 2018)
- openSUSE Leap 42.1 - May 17th 2017
- Because of the awkward version bump for SUSE Linux Enterprise and there previously not being a "openSUSE 15" release, they have decided to now match the SLE versioning scheme. So after the openSUSE Leap 42.3 release later in 2017, onward to openSUSE Leap 15 in 2018.
